# **MINI-GUIDE**

## **HOW TO SPEAK WITH YOUR ANIMAL**

- I. Listen.**
- II. Ask for permission.**
- III. Open yourself to feel.**
- IV. Respect your limits.**
- V. Have fun!**

# 1. Listen

**Animals constantly speak. The difference is they don't use words. They speak with their bodies.**

**Whether it is lowering their tail or blinking, they are communicating their feelings to you.**

**So, listen to them, not just with your ears, but with your whole body and heart as well.**

## 2. Permission

**Just like us, animals are very sensitive and don't appreciate being disturbed without their permission.**

**Take the time to see how he is today, ask your friend if he wants some company and if you can pet him.**

**Observe and wait to see if it is a "yes" or a "no".**

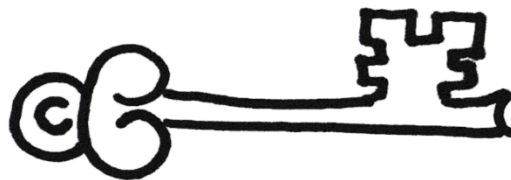

### **3. Feel**

**Now that he has opened up to you, it is your turn. Let him know your deep feelings and the secrets of your heart.**

**Take your time to fully feel and connect with empathy.**

**Animals are full of wisdom. Often, they can brighten our days and soothe our sorrows.**

## **4. Respect**

**Like everyone, animals have limits and it is your responsibility to respect them.**

**You must be aware of the signs he is communicating to you.  
It is also important that you express and respect your own limits.  
That's the secret to good healthy friendships.**

## **5. Have fun!**

**Because life is short, it is very important to take every opportunity to have fun!**

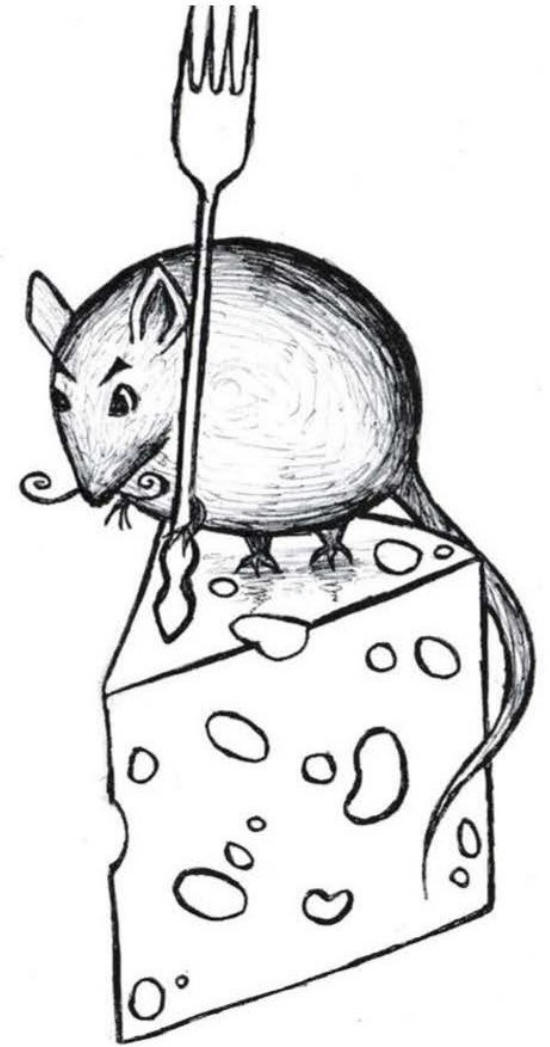

**Play together, make up stories, share jokes, say loving words to each other... You'll see, your friend will give it back to you a thousand times.**
